SUMMARY

Data Analyst with strong foundations in Python, SQL, data analysis, and problem-solving. Experienced in extracting, cleaning, analyzing, and visualizing data to generate meaningful insights. Skilled in building data-driven solutions and applying analytical techniques to support business decision-making.

EDUCATION

JNTU Wanaparthi

Bachelor of Technology – Computer Science Engineering (AI & ML), CGPA: 8.04/10

Graduated May 2026

Government Polytechnic, Gadwal

Diploma – Computer Science & Engineering, CGPA: 8.08/10

May 2023

PROJECTS

Sales Performance Analysis Dashboard | Python, Pandas, Matplotlib, Seaborn

[Link](#) 

- Analyzed sales datasets to identify trends, top-performing products, and revenue patterns.
- Performed data cleaning and exploratory data analysis using Pandas.
- Created visualizations using Matplotlib and Seaborn to derive actionable insights.
- Generated performance reports to support business decision-making.

Web Scraping and Data Extraction Tool | Python, BeautifulSoup, Pandas

[Link](#) 

- Developed a web scraping tool to extract and organize structured data from websites.
- Parsed HTML content using BeautifulSoup and transformed raw data into tabular format.
- Automated data collection and exported datasets for analysis using Pandas.
- Improved efficiency by reducing manual data gathering efforts.

Enhanced Blood Group Detection using Fingerprint Images | Python, TensorFlow, CNN

- Developed a CNN-based deep learning model to predict blood groups from fingerprint images.
- Performed image preprocessing, augmentation, and model training using TensorFlow and Keras.
- Applied machine learning techniques to automate healthcare-oriented prediction tasks.

TECHNICAL SKILLS

Programming: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn, BeautifulSoup

Databases: MySQL, PostgreSQL

Tools: Excel, Git, GitHub, VS Code, Postman

Concepts: Data Analysis, EDA, Data Cleaning, OOP, DBMS, SDLC

Machine Learning: TensorFlow, Keras, CNN

CERTIFICATIONS

Power BI Workshop – OfficeMaster

Excel Mastery – Wayspire

Introduction to Front-End Development – Simplilearn SkillUp
